ACTION HI-FAT 50 CALF MILK

100% MILK PROTEIN + 50% SKIM + WHEY CALF MILK REPLACER

Oil 22% Protein 20% 0% Fibre 7% Ash

- **Action HI-FAT 50** is produced with **100% milk protein** = Very digestible. This means that ALL the protein is from a dairy source (skim & whey), no vegetable protein at all.
- This a 'Reverse ratio' milk powder, so the oil/fat content is higher than the protein (whole milk is higher fat than protein)
- 50% skim milk powder is one of the highest levels available to help ensure a lovely 'Bloom & Shine' and optimise growth & development.
- **Action HI-FAT 50** contains functional proteins (Pre & Probiotics) which line the gut of the calf and help prevent bad organisms (including viruses) from attaching to the gut lining and causing damage
- This is a premium high performance calf milk replacer that is manufactured in the UK from UK supplied dairy farms.
