“ CALF SPLENDOUR ” + BIOSTART

HIGH QUALITY SKIM + WHEY CALF MILK REPLACER

Oil 24% Protein 22% 0% Fibre 7% Ash

Calf Splendour is produced with very high levels of milk protein = Very digestible (Cheaper products containing more vegetable proteins are less digestible). It also contains over 30% more oil (for energy) than some other products.

High levels of skim milk powder to help ensure a lovely ‘Bloom & Shine’

Calf Splendour contains functional proteins which line the gut of the calf and help prevent bad organisms (including viruses) from attaching to the gut lining and causing damage

One of our best selling ‘Reverse Ratio’ (Higher fat/oil than protein) powders which aims to be a suitable alternative to whole milk.
