

## ACTION CALF MILK REPLACERS

“The Best of British Milk”

### British Milk from British Cows

- ✓ 100% milk protein
- ✓ 50%-60% skim milk
- ✓ Pre/Probiotics
- ✓ Supporting the British dairy farmer

“Best powder I’ve ever used, the difference in the calves from my previous powder is chalk and cheese.

I won’t be using anything else!”

Thomos - 200 cow  
Friesian/Holstein herd  
in Carmarthenshire

Roger & Gareth - 190 cow  
Holstein/Friesian/Montbeliard herd  
in Wrexham

“Since using Action Fast-Gro 50 we have not had any digestive problems, they just take to it. The calves are a pleasure to look at and work with as well. Growth rates are out of this world and they are really well fleshed.”

“We chose Action Fast-Gro 50 because of the all milk content and that I could have a non-palm oil version. The calves have never grown as well as they have on this milk powder and the ALL British milk was the icing on the cake.”

Matt - 420 cow  
Holstein/Friesian herd  
in Hampshire

“We have been very impressed with the performance of our calves since using Action Fast-Gro 50.

Achieving 1kg of DLWG in our dairy replacements while feeding 1kg of powder per day.

We have never had a more palatable milk powder, they drink it like cow’s milk.”

Richard - 160 cow  
Holstein/Jersey herd  
in Lancashire

# MAIZE

Introducing **NEW**

## COOLSILE MAIZE PLUS

Coolsile Maize Plus is a powerful dual action maize silage additive combining preservative and bacteria which:

- ✓ Control moulds and yeasts
- ✓ Keep maize silage cool and stable
- ✓ Is ideal where maize silage is to be buffer fed
- ✓ Increases animal performance
- ✓ Gives face stability for up to eight days
- ✓ Is exceptional value for money

Simply add bacteria to preservative, mix and **apply at just 1 litre per tonne**

Available in **200L drums or 1000L IBCs**

Speak to your **ACT Area Manager** today about our **Special Autumn offer!**

**ACT  
EXCLUSIVE!**

## AFTER MAIZE

Maize harvest will soon be upon us and its time to think about post-maize soil mananagement.

### AFTER MAIZE CATCHCROP

A versatile and high production mixture for up to 2 years

- ✓ A blend of diploid and tetraploid Italian Ryegrasses
- ✓ Ideal for post-maize to produce a bumper crop in early spring
- ✓ Sowing Rate 10-14 kg per acre

### RAPID GRASS SPRINTER

A short term forage mixture for high production

- ✓ Blend of Italian and Westerwolds ryegrass
- ✓ Rapidly produces big yields of high-quality forage
- ✓ Ideal mixture to sow after maize in autumn or undersowing into maize
- ✓ Sowing rate 10-14 kg per acre

# ACTION FERTILISER

Polysulphate 

The diagram shows a central green cross with four yellow circles at the ends, each containing a nutrient symbol: S (top), K (left), Mg (right), and Ca (bottom).

**Prices on P & K are back at more reasonable price levels this season, so now is the time to consider your requirements for the coming year.**

Adequate soil levels of Phosphate and Potassium are required to help maximise yield and quality of all crops.

Soil Index levels below 2 for P & K ideally require seedbed or immediate post drilling application.

We can get soil samples arranged for you and then recommend specific P & K applications for individual fields.

Polysulphate is a multi nutrient product from the UK which contains Potassium, Sulphur, Magnesium and Calcium all in one granule. All the nutrients are available in the sulphate form which is accessible to crops. In addition the product provides an extended nutrient availability window along with low chloride and a neutral pH.

This is just one of the products that can be combined with others to create bespoke grades to match exactly the requirements you have.

**Talk to us about the options available.**

# ARE YOU A LIVESTOCK FARMER LOOKING FOR A HIPRO SOYA REPLACEMENT?

Cut down on food miles using a more sustainable product, increased output and all at a reduced cost!

## AMINOPASS RAP

- Increase in milk and meat yield
- Bypass protein level of 84%!
- Meeting the demands for DUP whilst giving the animal maximum efficiency
- Reduces the need for large quantities of protein whilst still giving balanced protein to enhance overall performance
- 1.2kg of Aminopass Rap will REPLACE 1kg of Hipro Soya in the diet
- Patented process doubles the amount of bypass protein!
- Careful process control procedures ensure proteins are **HIGHLY RUMEN UNDEGRADABLE** but retain the **HIGH INTESTINAL DIGESTIBILITY**

### REDUCED FOOD MILES

Sourcing the majority of raw material as home grown and producing in Yorkshire massively reduces the carbon footprint of each litre of milk.

# MINERALS & ACTOLICKS

## Are you feeding the right mineral?

Why not ask your ACT Area Manager to carry out a **full mineral audit** on your farm.

We will then come back to you with an **independent, unbiased recommendation** for the best way to balance your mineral requirements.

We often find that minerals, trace elements and vitamins are the missing piece of the jigsaw and when deficiencies are corrected very significant improvements in performance will result.

**Give us a call if you think we could help on your farm.**

08000 275 276  
www.actionfarm.co.uk

## THIS YEAR'S TUPPING = NEXT YEAR'S PROFIT!

Lambing percentages were down in the majority of early lambing flocks due to a very poor nutrition in the run up to tupping, we must NOT make the same mistake this year!

**Supplementing** with Actolicks buckets and blocks in the period from weaning through to mating can support grass utilization and ensure ewes reach the optimum body condition for tupping  
**= more lambs.**

**Energy** in the diet is also important to ensure that ewe's cycle effectively and subsequently hold to service  
**= more lambs.**

Rumenco's **on farm trials** have shown that offering supplementation to ewes during this critical period can increase lambing percentage by up to 22% when compared to no supplementation  
**= more lambs.**

### Actolick Sheep High Energy Buckets

An extra high energy feed and mineral bucket suitable for ewes and tups during the tupping period, with the added benefits to fertility associated with feeding fish oil. Fortified with minerals, vitamins and trace elements, including selenium, cobalt, zinc and vitamin E to

support stock at grass and overall performance.

### Action Ewe Booster Blocks

A 'must have' high energy feed and mineral pressed block containing fish oil as a source of omega-3 fatty acids. This supports optimal health, fertility and performance in breeding ewes and tups. A full mineral, vitamin and trace element specification, including selenium, cobalt and zinc complements levels often found lacking in forages and are required to support fertility and overall ewe health.

# FARM MAINTENANCE

## Push back on fuel prices

Save up to 10% at your fuel pump with our range of **FUEL ENHANCERS**

ACT's Additive range has been developed specifically to counteract the negative effects of FAME in Biodiesel:

<b>MULTIPLANT POWER+</b>	GASOIL (8 derv) enhancer
<b>ELIMINATE</b>	powerful antimicrobial biocide
<b>ARCTIC 1000</b>	antiwax cold flow promoter
<b>FUEL GUARD</b>	derv and petrol additive
<b>STRATUS HOT</b>	cooker kerosene additive

### DIESEL INJECTORS - BEFORE AND AFTER

3,000 miles *without additive*  
You don't want that in your engine!

3,000 miles *with additive*

E.G.  
FROM 1.3p  
PER TREATED LITRE

**ELIMINATE** £222  
4 x 1L BOTTLES (TREATS 16,000L)

**MULTIPLANT POWER+** £290  
4 x 5L BOTTLE (TREATS 20,000L)

**STRATUS HOT** £141  
6 x 1L BOTTLES (TREATS 12,000L)

**NEW FORMULA**

## JFC 170L MILK CART

Call ACT for your milk powder requirements

MK1703	Without mixer	£795
MK170M3	With mixer	£1220
MK170P3	With pump	£1760
MK170MP3	With mixer & pump	£2200

Milk warmer £350

Support collar £70

18 Litre, 6 Compartment Calf Feeder with Eazyflow Teats. £126 when bought with JFC Milk Cart.

## CEREAL SEED

Did you know ACT can also supply your combinable crop seeds? Including a wide range of AHDB RL varieties of Wheat, Barley, Oats, Triticale and Hybrid Rye plus peas and beans.

# AUTUMN ESSENTIALS - ANIMAL HEALTH

## PORTASOL 3 DEHORNER + FREE 100ML ADRENACINE

**Special Offer**  
**£99.99+VAT**

## SCRATCH BRUSH

Every cow/calf loves to scratch, the scratch brushes are a cost effective way of satisfying that 'itch'.

RRP ~~£48.50~~ each  
**Special Offer**  
**£38.00 each**

## CLIPSTER 'CORDLESS' CLIPPERS

Sheep RRP  
~~£276.50~~ +VAT

Cattle RRP  
~~£232.50~~ +VAT

**Special Offer**  
**£50 off RRP**

Powerful clippers for both cattle and sheep.  
Includes 2 x 14.4 volt batteries.

## DO-WORMING THE DAIRY COW

### EPRIZERO Pour on Wormer

- Worm burdens 'decrease' appetite and affect milk yield
- Zero milk withdrawal
- Effective against lungworm for 28 days

## HYDROLYTE & FIBROLYTE FOR DIGESTIVE UPSETS IN CALVES

- Electrolytes, pre/probiotics + egg proteins
- Fybolyte also contains fibre to slow the digestive system down

**Special Offer**  
**10% off in September**

Scan to find out more!

# SHEEP - FOCUS ON FERTILITY & GROWTH

## ACTION SHEEP BOOST

**High spec multi vitamin trace element and amino acid drench**

- Don't leave your fertility to chance
- Supports the ewes fertility pre-tupping and helps ensure a good lambing percentage
- Free flowing formula

**From only 28p per ewe!**

## ACTOTRACE EWE

**High Cobalt, Selenium, Iodine and Vitamin E boluses**

- Added Vitamin E for healthy egg production
- Available with/without copper
- Administer 4 weeks pre tupping ideally

**FACT:**  
Low cobalt can lead to poor reproductive performance

## ACTOTRACE LAMB

**Perfect product for light 'Store lambs' OR for replacement breeding ewe lambs**

- Highest levels of Cobalt, Selenium, Iodine, Zinc and now Vit. B1
- Vit.B1 for added energy utilisation
- Zinc and Selenium for growth and fertility

**FACT:**  
Forage analysis shows extremely low zinc again this year
